

COMMERCIAL PLANNING MANAGER

Scapa's vision is to be a world class, inspired, market driven team, focused on optimising customer and shareholder value through responsible, agile delivery of specialist tape solutions.

As part of our aim to be a World Class, market driven team, and as a result of growth in our medical, automotive and industrial markets, we have a requirement for a Commercial Planning Manager at our manufacturing site in Dunstable reporting to the General Site Manager.

The Commercial Planning Manager will be required to manage and continuously improve the site service, planning and warehouse processes and maintaining high standards of service, whilst balancing the inventory profile to ensure the site remains cost effective.

The individual will play an active role in the strategic management of the business at site level, including operational and commercial strategies, process improvement, structure, profit improvement, budget control and communication. They will be the interface between the commercial and operations organisations within Scapa Europe and occasionally within Asia and America, and influence the level of finished and semi finished inventory through effective planning and the sales and operation planning process. In addition they are required to oversee the warehouse and shipping activities with a view to implementing best practise and ensuring a safe working environment.

The successful candidate will require a minimum of 3 years high level production planning experience in a fast moving customer and cost driven environment. Experience of working with ERP based manufacturing systems using integrated computer software such as SAP are essential. If you have worked in an organisation with supply chain excellence, this will be a distinct advantage.
