## LTA

Safety Opportunities

First accident:  
The LTA above 4 days is due to back problem when handling unloading from palett a drum of adhesive. we immediately remove the risk and put in place specific device for unloading in safety condition the drum using a hoist.

second accident: (2 days off)

the operator was coming down from the scale and put his foot on the manual forklift.he felt a pain on ankle. we reinforce the houskeeping procedure to all operators.
