Safety Opportunities

On 20/07/2010 an accident happened in the Slitting dept. An employee put his hand on a roll. The hand was drawn-in. The employee broke her little finger. We reported in detail.

Measures: awareness raising of employees, covering the dangerous parts of the plants and secure with limit switches.

In the Month of July, we found 11 unsafe conditions and acts. three with high risk, four with middle risk and four with small risk. Five have already been done.

We conducted three trainings this month by

- ☐ Staff Event: What to do when an accident during the holidays.
- ☐ Accident of 20:07, accident / Measures
- ☐ Dealing with dry ice.

Important changes:

On all doors of the production areas were a) the risks b) the protective c) the prohibitions d) of the offenders, newly declared.

Postscript: IOS achieved certification. No deviations noted. The new guide to waste management liked the auditor particularly well.
