Comment	Lyndsey, can you look at this IJF. The cut width is large and the coils will be above a safe lifting weight. However, it will be slit on the Clawson and we do have a safe system of work available. Andy

Comment	from a H&S perspective this will have to be a production trial as this is larger in width than we have handled before. However we have the appropriate kit on the clawson to handle, but the SSOW needs to be used and must be highlighted on PO.
