Subject: **New codes** for **Scapa 2708**

Dear Customer,

Scapa would like to inform you about the creation of new codes for our product **Scapa 2708**.

To be in compliance with our Health and Safety rules, we have had to make some improvements in our manufacturing process and had to reflect the changes in realigning our articles by creating new codes.

Therefore, all new orders received will be, from now, honoured with these new codes that will be communicated to you by our Internal Sales.

We guarantee that **Scapa 2708** keeps all its technical specificities and is in conformity with our standards.

In the meantime, our commercial representative and I remain at your disposal to provide you with any further information that you may require.

Yours sincerely,

**Christine Toussaint**  
Product Manager
