Material Group 2705 Business Unit

Reason For IJF order

Product Owner Jeff Tate

Description

As material 103458, each coil individually wrapped and labelled but without tower pack wrapping.

This coil is used in a 2 part kit (1 roll of wrapped 2705 is placed together with an unwrapped roll of 2547, they are then shrink wrapped together at Ashton.

The operators have to remove the tower pack wrapping before they can make up the kit and it is quite time consuming.
