## I. COMPLAINT INFORMATION

Origination Date	15 Jun 2011					
Sales Name	Tony Kibler	Sales Office	Windsor			
Telephone	+1 860 902 8233	Fax Number	+1 860 688 7000			
Email	Anthony.Kibler@scapa.com					
Customer Complaint Ref						
Customer Name	Lofton Label Inc.					
SAP Customer Number	127427	Customer Order N°				
Customer Part Number						
1) Invoices And Items	s On Complaint					
(a) SAP Invoice Number	9700036720	Invoice Date	21 Mar 2011			
- Material	159878	Batch	2003513			
	Material Description					
	12 35-42# C1S CoPET (Clay Coated)					
2) Problem Description						
The stock is so baggy on one side of the material, it can not be ran through the press efficiently enough in order for it to be						
rewound through the rewinder without becoming a Non Conformity for the end user.						
Actions Requested From The Customer						

## 3) Containment Actions

Credit for \$2,278.66 USD

Customer returned 2 rolls and was able to use the rest of the order.

## II. EVALUATION AND ACTION

Sample/photo Received	Yes					
Date	21 Jun 2011					
Process Owner	Doug Matthews					
Team Leader	dmatthews					
Is Complaint Valid?	Yes Return The Goods	Yes	Dispose The Goods	No		
Comments						
	on Order for this customer to include: At the fi	rst sign of die buildup, the o	perator is to shim the			
die.						
1) Analysis						
	stock is so baggy on one side of the material, d through the rewinder without becoming a No					
in order for it to be rewound	a through the rewinder without becoming a No	on Comornity for the end us	CI.			
- We observed bands and	depressions in the rolls shown in the pictures					
- Retain samples did not show unusual cross direction gage variation as we normally test.						
- Inspection of returned rolls showed pencil bands through the roll. The rolls were rewound and the bands were seen through most of the 2 rolls from top to core.
